PORTLAND PORT

LPG SHIP TO SHIP

Anchorage & Berths

6 designated outer harbour anchorages with depths up to 19.3m (C.D.)
9 designated inner harbour anchorages
6 main operational berths; 4 of which have alongside water depths of 11m.

Pilotage

Portland Harbour Authority can provide pilotage 24 hours a day, 7 days a week, to all vessels from the pilotage station to, or from, all anchorages and berths.

Towage

Portland Port owns three tugs with all craft being fully certified for use within the Portland Port Harbour limits and operated by fully trained Portland Harbour Authority personnel.

Vessel Services

Vessels can undertake all manner of services whilst at Portland Port, such as, ownership/management/name change surveys, classification surveys, stores/crew transfers and numerous underwater operations.

Quayside Services

Portland Port can offer a comprehensive range of quayside services for its customers, such as, mooring, provision and installation of gangways, equipment hire and dry/liquid waste removal.

STS Marine Solutions believe in building long-term, mutually beneficial relationships with its customers founded on total dependability and technical know-how.

Oil and gas companies and tanker owners rely on our team of specialist supervisors and mooring masters. These are backed by state of the art new series of ships with unique design features for critical support during cruise oil, oil products, LPG and LNG shipment and transfer.

STS Marine Solutions are prepared and ready for mobilisation 24/7 and offer decisive response plans to meet your unique requirements. Our turnkey Oil/LPG/LNG ship-to-ship solutions support you from concept to implementation.
